Move-Out Day

A pan-European campaign for renters in
DE, FR, NL, ES and the UK.

Young Europeans rent. **For longer.**

26.3

The average age young people leave home in the EU (Eurostat, 2023).

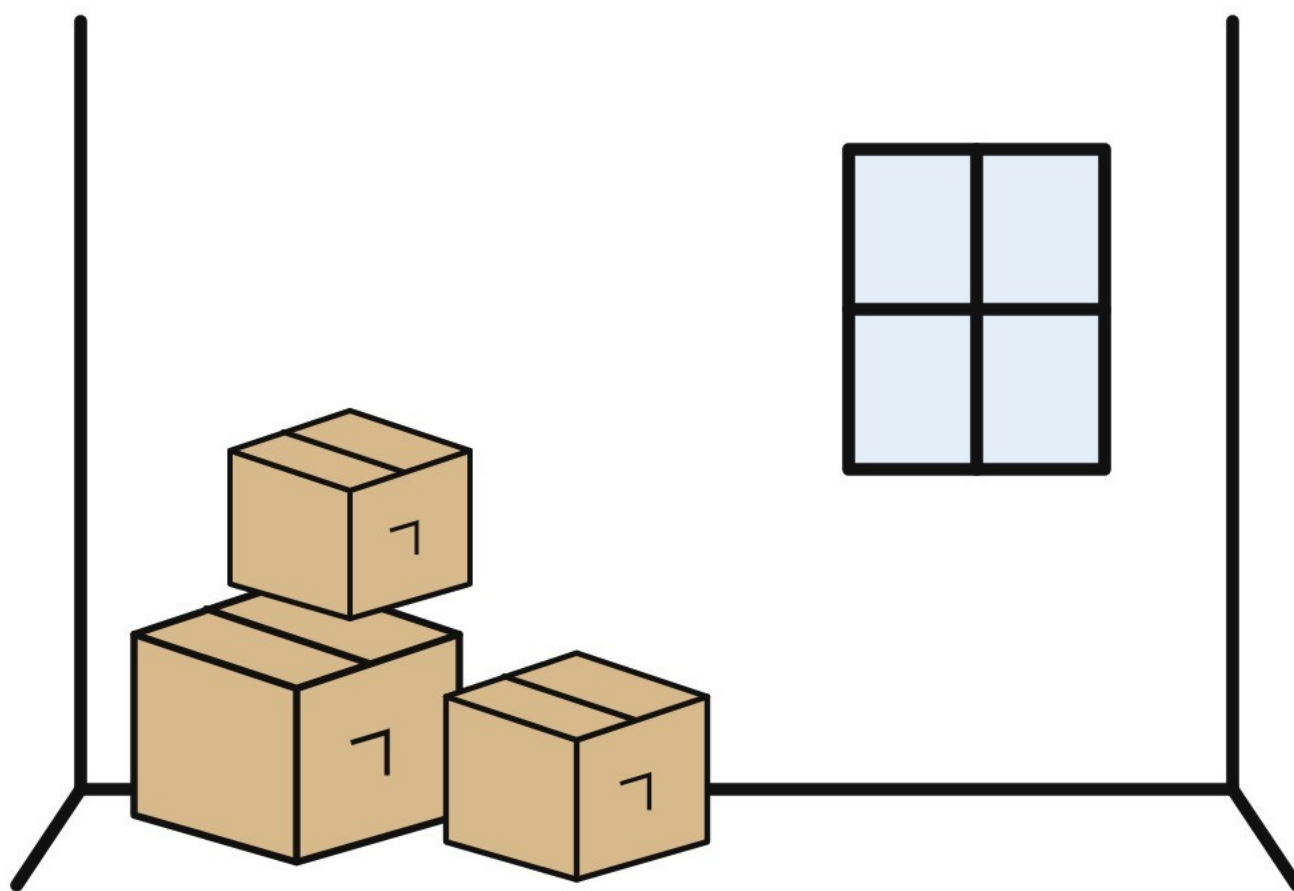

~50%

of German households rent their home, one of the highest shares in Europe.

€0

of the deposit you get back if you drill the wrong wall. So many renters don't hang anything at all.

"For now" lasts years. So renters live like guests in their own homes.

Boxes still packed.

Nothing on the walls.

"I'll sort it when I own a place."

So IKEA's biggest growth audience is buying the least. Not because they don't care, but because it feels like wasted money.

Home, for now.

IKEA makes the temporary home feel permanent, and helps it move with you.

Deposit-Safe

A labelled range that leaves no marks. No drill, no drama.
